Description & Scope

North Oil Company (NOC), a joint venture of Qatar Petroleum and TotalEnergies is undertaking the construction of Batch 3 of the Gallaf Project in Al Shaheen Field, Qatar.

The project aims to maintain output at Al Shaheen, Qatar’s largest offshore oilfield.

The current profile covers EPC-05.

The US\$400 million project includes the following:

- 1. Construction of two wellhead platforms (WHP)
 - a. WHP-JA with a topside weighing 4,300 tonnes and a four-legged jacket of 2,521 tonnes
 - b. WHP-KA with a deck weighing around 4,300 tonnes and a jacket of 2,460 tonnes
- 2. Construction of a bridge to link the existing platforms
- 3. Improvements in the existing facilities
- 4. Installation of equipment
- 5. Installation of associated facilities

North Oil Company plans shutdown of offshore assets

🕒 06 Feb 2023

Two offshore platforms at Al-Shaheen oil field due to go under planned shutdown later this year North Oil Company (NOC) has planned a shutdown of two key offshore platforms at its Al-Shaheen oil field in Qatar, situated 80 kilometres north of Ras Laffan in the Gulf’s waters. Platform locations C and F are scheduled to go into shutdown from 27 March until 10 April, according to a source. “This is a scheduled shutdown exercise that has been planned to perform maintenance works to ensure the platforms continue to operate efficiently,” the source said. “Teams are preparing for this shutdown.” Al-Shaheen field has an oil production capacity of 300,000 barrels a day (b/d). The field’s oil reserves are among the biggest in the world, and it is Qatar's largest oil field, contributing to about 45 per cent of the country’s oil production. Al-Shaheen oil production NOC, a joint venture of QatarEnergy (70 per cent) and France’s TotalEnergies (30 per cent), has undertaken several projects in
